AMP Capital Investors invites you  
to our special client event

# Investing in infrastructure

## POST THE GLOBAL FINANCIAL CRISIS

Richard Shields, Managing Director, AMP Capital Investors Ltd

Richard will re-examine the case for infrastructure investing given the recent market events. He will discuss the key risks involved as well as how core infrastructure stands up to other key investment criteria such as diversification, inflation protection and cash flow.

Rob Verrion, Head of Asset Management, Europe,  
AMP Capital Investors Ltd

Rob is a highly experienced senior executive with a strong operational background and over 30 years experience in infrastructure related asset management. He will draw on his extensive management experience in infrastructure companies to illustrate how get the best out of so called "boring" assets, with particular reference to two case studies:

- Angel Trains, owner of the largest fleet of passenger rolling stock in the UK
- Compania Logistica di Hydrocarburos (CLH), the monopoly owner of the petroleum products pipeline in Spain

Rob has held key roles in major transport, energy and utility companies such as:

- Chief Executive Officer, Angel Trains
- Board member for Compania Logistica di Hydrocarburos (CLH)
- Chief Operating Officer, National Grid
- Senior positions at Severn Trent Water, Metrogas and British Gas

**Date** Wednesday 19 January 2011
